ADBIS 2010 CLOSING

Dear (most persistent) ADBIS 2010 participants, thank you for still being here 😊

The closing part of any conference is often a rather sad moment (for me) as only a few participants stay until the end.

Again I would like to thank all members of the Organizing Committee for working hard during the last year, but as I said and as you also know I am especially thankful for the enormous help of my young assistants:

Dejan Mitrović
Živana Komlenov
Gordana Rakić
ADBIS 2010 CLOSING

Number of registered participants: 106

- At least 1 author of almost all accepted papers, Steering Committee members, some PC members
- Several colleagues from organizing institutions
- Members of the Organizing Committee
Thanks to Prof. Bernhard Thalheim and Prof. Barbara Catania for their productive work in the last year, leading to high-quality accepted papers, proceedings and participants.

Please Barbara and (or) Bernhard, inform us about further steps concerning the selection of papers for a special issue of a journal, next year’s conference, …
In the last year ADBIS was a part of my everyday life, and often took a lot of my time and energy. My husband and children suffered a lot 😞, but organization of ADBIS, after all, was my choice.

From tomorrow, I really can't imagine how my life will look like without ADBIS 😊.
ADBIS 2010 CLOSING

And let me finally repeat: It was really my pleasure to have all participants here. Sorry that from time to time I was a little bit nervous and too worried.

I hope that you more or less enjoyed the Conference (everything looks much better when the weather is nice).

I wish all of you to continue with successful research, to publish a lot of high-quality papers, and continue your participation at ADBIS Conferences.
Vienna is waiting for you at ADBIS 2011
WE WISH YOU A SAFE RETURN HOME
